VOL. IX. RENO, WASHOE COUNTY, NEVADA, THURSDAY, MAY 27, 1880. NO. 49.

THE ONLY INSTANCE

Of a Mule's Laming Itself in Kicking.

The New York *Sun* says: They tell of a mule at Big Evans, Nev., who amused himself by driving nails with his heels. There was a post containing nails partly driven, and the mule, backing up within easy reaching distance, began kicking the nails home. When the head of a nail projected but a short distance he would tap it gently, and drive it like the carpenter with a hammer. When the nail was half driven, then it would require a heavy blow; but the mule appeared to understand perfectly the weight to be applied. Fifty or sixty nails were driven in this manner, and then a rough old twenty-penny was encountered. Two or three fair blows were administered without any perceptible result, and then the mule trembled with rage. Stepping a little further away from the post, he laid back his ears, doubled up his back and fired away with both heels. The blow was terrific, and the post was broken off at the ground. In the kick, though, the mule sprained the tendons of the left hind leg seriously, and now goes lame. It is the first instance where a mule has been known to lame itself in kicking.

Counterfeit Money in Circulation.

Thompson's Bank Note Reporter mentions a new counterfeit gold coin at the East as follows:

A well executed counterfeit $5 gold piece has just made its appearance. Its weight is correct. When the acid test was applied in New York, its surface and edges were found to be genuine gold, but its lack of ring betrayed the base filling within. The coin had been carefully split in two and hollowed out, leaving a very thin plate on either side of the genuine gold. A crack in the edge, preceptible only to the keenest vision, showed where it had been cut.

A note from the Treasury Department, dated April 23d, calls attention to a new and dangerous counterfeit, as follows:

A counterfeit $5 treasury note, the joint production of the camera and carbon printing, has just been found. The note is of the series of 1875, number B 8058120, which number will be reproduced on each impression obtained from this negative. The pink seal, and the cycloid work on the right and face of the genuine note, also in pink, are both absent from the counterfeit. This point should at once determine its character. To remove the stiff, brushy character of the chemically prepared paper, also to cover the blurred appearance of the geometric lines in the centre of the back of note, it has been saturated by a preparation of glycerine, in consequence of which it has a very greasy and soiled appearance. To persons not expert judges of money, it is a dangerous counterfeit.

Important to the Public—Great Reduction.

Hair Cutting 25 cents; Shampooing 25 cents; Shaving 25 cents. Having secured the services of a first-class barber, I have concluded to comply with the demands of dull times, and reduced my prices. THE BEST ROUTE.

The *State Line Herald*, published at Lakeview, Oregon, reprints Dr. Patterson's letter to the GAZETTE in advocacy of the Lassen Pass road, and gives its hearty endorsement to that route. The *Herald* concludes an article respecting it as follows: Beyond the last chance of doubt, the Lassen Pass route is the one over which we can travel with less loss and expense, both in time and actual outlay of money. The roads leading to Reading and Red Bluff from these valleys are now winter locked, and no hopes are entertained of their being open in season for the usual freighting for goods and provisions. The road to Reno is now open, except one point, and that is found on the summit of Lassen Pass, the only mountain to cross on the entire line. These facts are conclusive as to the merits of the two routes so far as Southeastern Oregon and a portion of Northern California are concerned. The line by way of Alturas, Honey Lake and the old stage route to Reno will not compare with the one favored unanimously by the people of the sections above mentioned, in consequence of high mountain ranges to cross, together with many other obstructions equally as embarrassing to the traveler. With the Reno road properly constructed, the people of Surprise, Goose Lake, Drew's, Crooked Creek, Chewaucan and other valleys will have no possible excuse for not shipping the necessary supplies for winter use; but as it now is, we have actually suffered from being corralled to such an extent as to be wholly unable to procure the necessaries of life when our supplies were exhausted.

A GOOD PLANK FOR BOTH PARTIES.

Delegate Hagerman has prepared a resolution which he intends to present to the Convention at Winnemucca before it adjourns, to the effect that the money of the state should be expended, as far as possible, within her borders, and that her disbursements should be made to her own citizens, and recommending that our insane be provided for at home and not sent to private parties in California for treatment. We recommend the plank to the Republican Convention when it meets.

EDITORIAL NOTES.

The Stockton *Herald* enumerates the bad investments that the people of that city have made in railroad stocks, and says, in reference to the project of a narrow gauge over the Sierra: "Before the money is raised, however, something more tangible and reliable will have to be offered than the 'supposition of an intention' on the part of somebody or other to build the magnificent narrow gauge system of Nevada which is to extend to the Mississippi."

The last number of Harper's *Bazar* contains a picture showing the styles of ladies' collars that are to be "worn" this summer. One is turned down and hangs over the shoulders like the cape of a waterproof cloak. Another is a standing collar, with immense points in front reaching up to a level with the ears. The points have a formidable appearance, but are provided with holes by which they can be buttoned back on the ears when desired.

In Indian valley, Idaho, a grizzly bear stole a pig in the night. Two men jumped out of bed, and seizing their rifles, started in pursuit. One fired at what he supposed to be the bear, and fatally wounded his companion, who had distanced him on the trail.

Does Grant still hope that the necessity for his nomination may not arise?

New Athletic Grounds for San Francisco.

SAN FRANCISCO, May 26.—An association of gentlemen have purchased the Bay District Park, on the Cliff House road, with the intention of devoting it to general athletic purposes. They will erect an amphitheater of elliptical form—the shorter axis being 550 feet, and the longer 750 feet—capable of seating about 100,000 people. A canal 75 feet wide, fed by an artesian well, will extend around the arena, inside of the seats, and be used for boat races, swimming matches, etc., while the arena itself will contain a track for pedestrains, base ball grounds, an archery range and other facilities for recreation. Work on the project will be commenced at an early day.

Miners' Strike at Leadville.

LEADVILLE, May 26.

Two thousand seven hundred miners struck to-day, demanding an increase from $3 to $4 per day. They held a meeting and visited the mines, compelling the other miners to quit work. Several mines have refused to accede to the demand. The arms of the several Leadville military organizations are in the hands of the strikers.

DIED.

GAULT—At Glendale, May 25, Nellie Gault, aged 13 years.

JOTTINGS.

—Yet a little too cool for soda water, the druggists say.

— Merchants complain of dull sales for the week past.

— The funeral of Nellie Gault took place at Glendale this afternoon.

— McClelland & Simpson's new delivery wagon made its appearance this morning.

— Pictures brought very low prices at the auction last evening. Another lot will be sold this evening.

— M. C. Lake is setting out trees around the Marsh house and otherwise improving the property.

—An Indian woman living near Reno is said to be over an hundred years old. Her hair is white.

— The house fly is still quiescent, but some of the butchers have already put up screens in their stalls.

—The crops in Long Valley are looking first rate. The grasshoppers have done no damage out there yet.

—The *Enterprise* says that M. B. Dwelly, who bought out L. T. Fox, has brought suit against William Gray on a note of $8,800, and has attached the latter's place of business.

— The dry atmosphere of this region is highly favorable to the production of frictional electricity. Stroke a horse's mane with a stiff brush and a crackling noise, caused by the induced electricity, will instantly follow.

—The ranchers in Long Valley have had to buy a good deal of hay this spring. F. Lemmons has bought hay to the value of $2,000, Chat Roberts $1,000, Merrit $200, Sol Purdy $500, Ed. Ferris $300, R. E. Ross $100.

— It is said that the Rev. G. F. G. Morgan, lately and for some years, pastor of the Congregational church at Grass Valley, Nevada county, Cal., will preach at the Congregational church in this place next Sunday, May 30, 1880.

— Deriving additional interest from the fact that it has so far been kept a close secret, is the announcement that Mrs. Younglove will address the Reform Club on Saturday evening. A very interesting address is expected from this talented lady.

— You can get all kinds of fresh and salt water fish at McClelland & Simpson's to-morrow morning. Trout, salmon, shrimps, perch, smelt, flounders, soles, rock cod, tom cod, crabs and lobsters are among the variety. Leave your orders to-night.

A Birth on the Sidewalk.

Says the Virginia *Enterprise*: A Piute squaw was delivered of a child yesterday afternoon about 2 o'clock on the sidewalk near the corner of D street and Sutton avenue. The little event only caused a halt of some ten minutes. A neighborly squaw wrapped the new born child in some rags, and taking it in her arms started off toward the eastern suburbs of the town, the mother arising and following.

FROM CANDELARIA.

The Return of the Reno Expedition from The Mines of the South.

It was no slow coach, but a rattling four-in-hand and a thoroughbrace wagon that pulled out of Reno on the morning of Wednesday, May 12, with a band of adventurous spirits whose destination was Candelaria. The party consisted of Dr. Lewis, John F. Myers, B. F. Bacon, George Jamison and J. M. White. At Wadsworth Jake Lewis reinforced the expedition. On Thursday morning a start was made from Wadsworth to Candelaria direct. That night the party camped at Big Adobe on the Carson river. Candelaria was reached Monday morning, four days after leaving Wadsworth. The distance is about 135 miles and the road good all the way. The sand is pretty deep in places, but the road is generally level. After leaving Sulphur Springs, water must either be carried, or purchased at stopping places along the way.

THE TOWN OF BELLVILLE

contains from eighty to 100 houses. It is kept up by the milling of Northern Belle ore. The mine is at Candelaria and the ore is hauled seven miles to Bellville. The Northern Belle company will not do any custom work at their mill. One of the travelers says that the general prospects of the Northern Belle are not flattering. The business of Bellville appeared dull.

CANDELARIA

has about 100 houses but no hotel. Its population is probably about 500. The mines show excellent prospects. There is no mill in the place and none can be erected until the camp has an abundant supply of water brought in. All the water now used in the place has to be hauled four miles in barrels. The water that comes from Columbus is sold at four cents per gallon and smells bad when a day old. Rock Spring water is clear and pure and commands five cents a gallon. It cost the party

$2 A BARREL FOR WATER

for their horses during their stay in Candelaria, and the horses would empty a barrel a day. The bills for water drank by the members of the expedition were, however, light. They felt that they could not afford to drink much water at five cents the gallon. Bathing is not largely indulged in by the inhabitants of Candelaria. Baths are $1 50 each. Water can be ditched and flumed from mountains 32 miles away, in abundance for all purposes. The estimated cost of the contemplated water works is about $300,000. Nothing definite has yet been done in the matter, although the mining developments appear to warrant the outlay. There had been

A FLOUR FAMINE

in the place a week before the arrival of the Reno party, but happily a new supply had been received in advance of their coming, sufficient to satisfy the ravenous hunger of the miners Had provisions not have arrived in time the expedition would probably have lost its bacon. It takes fifteen days for freight teams to make the trip from Wadsworth. Freight is two and five-eighths cents per pound. Hay in Candelaria is worth $6 a bale, or about $50 a ton. Wood sells for $20 the cord. A stay of two days in Candelaria enabled the party to see the most remarkable objects of interest in the town, and on Wednesday noon, they drove out of the place,

ON THE WAY TO BODIE.

That famous camp was reached at 5 P. M. on Friday. The party unite in pronouncing Bodie the worst smelling and filthiest place they ever saw—mud in the streets up to the hubs of the wagon, no drainage and the ground saturated with sewerage matter. They think the place will be visited by a pestilence should hot weather come on. They remained there only 24 hours. The trip home was made via Virginia, Gold Hill and Silver City. White and Jake Lewis remained in Candelaria on business. Jake Lewis' brother Charles took his place and came to Reno with the party. Of all the places visited the party declare

RENO IS THE LIVELIEST.

They believe there is more business done here in proportion to the population than in any of the new and much advertised mining camps. They all come back feeling greatly improved in health and spirits. Each gained something in weight, and all have a hearty, rugged look. They camped out all the time, and cooked their own meals. It must have been a picturesque sight to see them eating fat bacon and flapjacks around the camp fire.

A Tramp's Curiosity Satisfied.

A tramp named Thomas Rose picked up a railroad torpedo near Truckee last Saturday, and tried to break it open, out of curiosity. It exploded, mangling his face frightfully, and sending a piece of metal into his head. The wound is probably fatal. Rose was sent to Sacramento, where he has relatives.

Station for Sale.

E. J. Curtis advertises his station and ranche in Carson Valley for sale. He has a nice house, good water, etc., which he will sell cheap. The property is twelve miles from Carson on the Bodie road, and is to be had at a bargain.

COLORADO'S CAMPS.

The Excitement Over Roaring Fork District — Highland and Hunter's Creek Districts—Rich Ore and Excellent Developments—A New Colorado Town.

From Our Own Correspondent.

The famous Roaring Fork mining district, which is the centre of the spring excitement here in Colorado, is located about thirty-five miles west of Leadville, as the crow flies. The topography of the country is not dissimilar to that around Leadville, only it is not so abrupt, the mountain slopes being more gradual. The district is about 3,500 feet lower than Leadville, and it abounds in timber of the best quality. Pine and spruce grow to large dimensions, and furnish fine, solid lumber when cut. There are also many aspen trees, cottonwood, and oak brush, while ferns and rushes grow luxuriantly. The valley of the Roaring Fork varies in width from one-half to three miles in the mining district, and the entire valley is susceptible of cultivation for cereals and vegetables of various kinds. The outcropping rock is mostly red sand stone and limestone. The indications for mineral are very flattering all over the district. The Highland and Hunter's Creek district have some very fine mines. In the former, the mineral shows right in the face of the bluff. Masses of bright, pay argentiferous galena are exposed to view, in some instances fifteen feet across and twenty-two feet in height. It is probable that the entire face of the cliff will disclose similar mineral, when the cap rock has been removed. Not more than 500 yards from this body of galena,

FISSURE VEINS HAVE BEEN FOUND,

some of which have the pay streak opened six inches in width, that contain gray copper ore running high in silver. At the Highland camp, further above, carbonates are found in abundance. Stevens & Lister have thirteen claims, all in good bodies of mineral ore, especially the "Camp Bird," which has developed a 10-foot body of carbonates, running from 90 to 300 ounces in silver. The Leadville and Roaring Fork Mining and Prospecting Company also have developed some fine property. Two of their claims in particular have fine breasts of mineral exposed, viz., the Mankato and Louis B. Across the Roaring Fork, on the north, adjacent to Hunter's creek, the mines show unusually well in lead. The famous Smuggler averages 90 per cent in this valuable associate metal, so necessary to the process of smelting. The section lying along the foothills of the Sagnache range, toward the west, and along Woody river is at present being prospected successfully. A number of good strikes are reported, and others will undoubtedly follow. With regard to prospecting the country has hardly been touched. Below Maroon creek and down the Roaring Fork as far as Ten Mile, it is a good mineral country, and among the Maroon mountains, on the south side of Roaring Fork, the prospector will find ample and remunerative fields for his labor.

THE CLIMATIC CHARACTERISTICS

of Roaring Fork are very different from Leadville. In the latter the atmosphere is keen and cutting; in the former mild and balmy. In the former it act upon the skin like a camel hair brush, in the latter like a dull razor. The atmosphere is dry and pleasant, tempered by the warm breeze of the Pacific slope. The new town of this promising mining Eldorado is called Roaring Fork City. The promoters of this enterprise are such men as Lieut. Gov. H. A. Tabor, Dr. A. A. Smith, postmaster of Leadville, and others like them. They sent a large party in mid winter over the range to survey and lay out a town site on the ground lying between Maroon and Cattle creeks. There is but one opinion with regard to the eligibility of this piece of property, which comprises 640 acres—two-thirds of it occupies the broad and level portion of the valley, while the other third consists of an upper bench or ridge, well defined and backed by the Maroon mountains. In the central portion of the town a public square has been laid off which, in honor of the Lieutenant Governor, has been styled Tabor Square, and something over 1,000 lots have already been sold to the merchants and business men of Leadville who intend establishing branch houses over there. If the mineral pans out in the Roaring Fork district to justify the expectations of its friends, a city of 10,000 people will spring up between Maroon and Castle creeks before snow flies.

Death of Paul Morrill—Kalloch's Case Dismissed.

SPECIAL TO THE GAZETTE.

SAN FRANCISCO, May 27.—Paul Morrill, late proprietor of the Sacramento *Union*, a naval officer of this port, died this morning.

The Superior Court this morning sustained the general demurrer of Kalloch against the impeachment proceedings by the Board of Supervisors, and dismissed the case.

A Libel on Reno Clergymen.

This is from the Bodie *Free Press*: The tar-bucket is such a favorite article in Reno that the clergymen, in order to be popular with the best citizens, preach that there will be tar-buckets in heaven. Feathers in large quantities are known to exist, but the t. b. is only a supposition.

INDIAN DANCING.

The Red Men's Ball on the Flat by the River.

There was a large gathering of Indians Tuesday night on the flat bordering the south side of the river above the dam. They were mostly Washoes and had assembled for the annual spring dance, before going to their summer camping grounds. The dance commenced about 8 o'clock. Half a dozen redskins joined hands and formed a circle, standing close together. A slow, monotonous chant was commenced, the singers keeping time by jumping up and down with a sidling motion, gradually swinging around the circle from right to left. The circle gradually enlarged by frequent accessions, and in the course of an hour nearly a hundred Indians were dancing. Occasionally a pause would be made and when dancing was resumed the words of the chant would change. For ten or fifteen minutes there would be a constant repetition of what sounded like "hay enough, hay enough." Then would be repeated for as long a time, a phrase resembling "come in here, come in here." As the dance lasted until a very late hour, the words might, if strung together, make a lengthy song. The curious up-and-down motion of the dancers seemed ludicrous enough to a number of visitors who went over from the town to witness the spectacle. Some of them joined in the Indian ring and mastered the intricacies of the "step." It is proposed to call "the Washoe" at the next hop in town.

THE KNIFE.

A Man Killed in a Row at Railroad.

The Elko *Independent* gives the following account of a fatal fight at Railroad: Tom Hanoum was in Stoker's saloon, drinking with some friends, when Cassidy entered and announced that he could mop the floor with any one in the room. Hanoum construed the language as applied directed to him and announced that he was prepared for the mopping process, and mildly intimated that he didn't care how soon it took place. Cassidy remarked that he wasn't "heeled," when Hanoum threw back his coat to show that he had no weapons about him, and the row commenced. They had no sooner closed, when Hanoum drew a knife, and slashed Cassidy across the forehead. Cassidy then concentrated his efforts to get the knife away from his antagonist, and in the scuffle received a terrible wound, the knife entering just below the ribs, cutting a deep gash entirely across the abdomen. A messenger was at once dispatched to Elko for medical aid, and Dr. Huntington departed this morning in company with Deputy Sheriff Lowe. Hanoum was arrested and a preliminary examination will probably be held to-day.

A Most Complete Establishment.

Many persons, especially those living out of town, find it convenient to purchase all their household supplies at one place of business, thus saving a great deal of running about. S. Peyser has opened an establishment in Reno that exactly meets this want. Anything in the way of housefurnishing, from a mouse trap to a pair of blankets, can be bought at the new store, along with the family sack of flour, bag of beans and can of kerosene. His stock is large and makes an attractive display. Mr. Peyser is sure to receive a fair share of patronage.

Looking Out for Northern Trade.

Citizens here propose to shortly take some action in regard to the construction of a new road through to Lakeview, Oregon. Hammond & Wilson offer to furnish a team for the use of a party of delegates from Reno to go over the different routes, and decide which is most feasible. It is proposed to call a public meeting at which the matter may be discussed. A road is now building over the Lassen Pass. Some parties favor the Madeline Plains route. It is desried to ascertain which road would be most to the interests of Reno and best entitled to the support of our citizens.

A Square Acquired by Crook.

Giles Sharp, a person whose name has frequently been entered upon the calendar of the Justice's court, was arrested last evening by Watchman Mosher. Sharp had in his possession a carpenter's square which he had been trying to sell for two bits. This deemed conclusive evidence that he had stolen the article, and he was accordingly jailed. The owner of the square had not, at last accounts, been found. Sharp will probably come before the court this evening.

SUSANVILLE NEWS.

Horse Thieves in Jail—Diptheria Again—Promise of a Good Fruit Crop, Etc.

From our own Correspondent.

SUSANVILLE, May 26, 1880.

Last Sunday Deputy Sheriff Jno. Canon, of Modoc county, brought to Susanville C. W. Heap, Tom Miles and Tom Sally, all residents of this place. They stole two horses at Horse Lake belonging to Joe Hale and Mrs. M. Heap, mother of C. W. Heap. They were captured near Canon City, Oreogn, and are now meditating over their acts in the county jail. Mrs. Hale also had E. Said arrested as an accomplice of the others. He dwells with them. They have their trial to-day. Some parties broke into the house of James H. Harris of Madeline Plains and took a Winchester rifle, six-shooter, knife, bridle and pair of spurs. The worthies who grace our jail are supposed to be the thieves.

N. S. Hamilton, of this place, died after a long illness, Monday morning. The diptheria has again made its appearance again, but in a mild form.

John D. Kelly, in scuffling, was thrown, and in falling broke his ankle last Friday.

Mr. Hayden, of your city, is here running the *Advocate* during the absence of Mr. Weed, who has gone north to attend the meeting of the Grand Council of the Champions of Honor.

Frnit trees are in full bloom, and promise a splendid crop. CAXTON.

The Sale of Pictures.

Extraordinary inducements, intense excitement, immense crowds and everything harmonious at the great slaughter of oil paintings last night in Reform Club hall. The sale was well attended by our best citizens. Most of the paintings were sold but at surely ruinous prices to the artists, as many of them went for less than the frames cost. There is a case of new paintings, choice pieces, to be opened and and added to the balance of the stock, which will be sold out to-night to the highest bidder.

Freight for Candelaria.

Hank Robinson left Lee's yard this morning with a 14-horse team for Candelaria. His load includes 4,000 feet of lumber for S. D. Fannon. At Wadsworth he will take on a carload of 11,000 feet of lumber for Geo. H. Taylor of Candelaria. M. J. Curtis of Reno goes with the team and will put up Taylor's building in Candelaria.

DR. SPINNEY

NO. 11 KEARNEY STREET,

San Francisco, Cal.

Treat all Chronic and Special Diseases

YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the alter of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars.
